Filing Requirement for Design Application

The requirements for filing the design application on behalf of our clients are:

To file an application for design application, the required documents below have to be submitted together with the application:

1. *Claims*
2. *Drawings: One full set of six-side views in orthographic projection as well as one perspective view (two sets if in form of photos). Each view of the same set except perspective view must be in the same proportion. No background is allowed. Copies of photos of views are not acceptable but can be submitted as supplementary drawing.*
3. *Power of Attorney*
4. *Name and address of the applicant*
5. *Name of the inventor/designer*
6. *Information whether the color shall be claimed.*
7. *Priority document if based on prior foreign application.*

*** The Patent Office strongly discourages the use of photographs for Thai design patent applications. Accordingly, for each design patent application, please provide drawings of the design rather than photographs. For design patent applications, it is customary to show a front view, a back view, a left side view, a right side view, a top view and a bottom view; you may require showing a perspective view. The drawings should use solid lines with no shading.***

Furthermore, the following documents have to be submitted to the Patent Office on filing date or **within 90 days after the date of filing;**

1. In case of a juristic person applies for; the applicant must furnish the examiner with **Deed of Assignment. According to the Patent Act, the assignment should have both signatures of assignor and assignee.**
2. In case of inventor/creator applies for, he must fill up **the Statement of Applicant's Rights.**
3. Filing the above application on your behalf in Thailand, **Power of Attorney** is needed. Indeed, the applicant is required to grant his authorization to our agent registered with the Intellectual Property Department only. **Also it must be notarized by notary public.**
4. Information about applicant
